PROFILE

Designer and developer by craft, auditor by profession. I build ***brands*** and the ***systems*** behind them, and I check the ***numbers*** twice.

Accounting taught me to look closer. Computer science taught me to think in systems. Design taught me that useful things can be beautiful. By day I work in audit; after that I run Kampo Co., setting up, branding and building businesses for people with something to put into the world.

Designer I

Art direction and brand identity · UI, UX and interaction design · motion design · editorial typography and print.

Developer II

Front-end: HTML, CSS, JavaScript · ERP and CRM system design · Oracle Cloud Infrastructure · Cisco networking · C++.

Auditor III

Audit and assurance · internal controls testing · financial statements and reporting · reconciliations and the general ledger.

EXPERIENCE

Associate Auditor, Innovus Aug 2026 – now

Audit engagements, internal controls testing and working papers.

Founder, creative director and developer, Kampo Co. 2025 – now

A creative studio in Mombasa that sets up, brands and builds businesses, all in one place.

Brand identity and creative direction, websites and digital presence, tailor-made ERP systems, business setup and marketing. Delivered a brand website and shop, a logistics ERP, a CRM and the studio's own poster identity.

Accounts Assistant, Contingent Haulage Africa Ltd Oct 2025 – May 2026

Invoicing, reconciliations and monthly reports for a regional container haulier. Saw where paper slowed the office down, then designed and built the company its own ERP: shipments, dispatch, fleet and invoicing on one screen.

EDUCATION

CPA, KASNEB 2022 – now

Intermediate level (Section IV) completed.

Diploma in Computer Science 2023 – 2024

Riara University.

CERTIFICATES

Oracle Cloud Infrastructure · Cisco Networking · C++ Programming

Selected *work*

Four projects, 2025 – 2026. Brands, websites and the systems behind them, each designed and built end to end.

CASE 01 · 2026

RB Perfumes

Fragrance, without the noise.

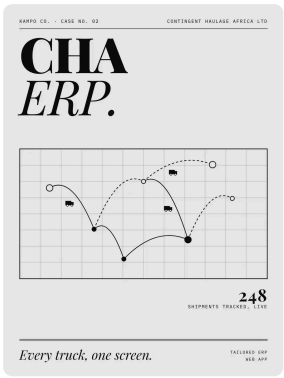

Brand website and e-commerce · design, development · rayanbayusuf.pages.dev

01 The whole range in one calm catalogue

02 Ordering on WhatsApp in one message

03 Built light for mobile data

Before prices and stock asked one message at a time.
After one link to share; browse and order at once.

CASE 02 · 2025 – 26

Contingent Haulage ERP

Every truck, every invoice, one screen.

Tailored ERP for logistics · product design, development

01 Shipments booked, tracked and closed

02 Dispatch board from Booked to Delivered

03 Invoices raised from the shipment itself

Before Excel sheets, WhatsApp groups, invoices typed by hand.
After month-end reports straight out of the system.

CASE 03 · 2025

Ledger CRM

No lead goes cold.

CRM system · product design, development · private client

01 Website and WhatsApp leads captured automatically

02 Every deal on one pipeline board

03 Follow-up reminders for the team

Before leads written down wherever was closest.
After the team knows exactly who to call today.

CASE 04 · 2025

Make it Loud

One colour. No photos. Impossible to walk past.

Poster series · art direction, graphic design

01 One colour, one type family, no photographs

02 Built for paper first, then cut down for screens

03 Now the studio's visual language

Before a new studio without a voice of its own.
After posters that read as one voice, used everywhere.

THE STUDIO

Kampo Co., Mombasa. ***We set up, brand and build businesses.*** All in one place.
